

PRODUCT SPECIFICATIONS

TrueBlack CTR2.0

Wheelset Weight: 1360g

Front / Rear Weight: 590g / 770g
Spoke Count: 24 / 30
Over Locknut: 100mm / 130mm
Compatibility: Shimano 8/9, SRAM, Shimano 10, Campagnolo 10/11
Rim: 19mm wide x 20mm deep
MSRP: \$1,420

Features

Rim - Enhanced alloy, heat treated aluminum, welded seam, machined break track

Spokes - Aero profile, continuous TrueBlack carbon fiber composite

Hubshell - Patented CarbonCore design utilizing proprietary long-fiber carbon and woven composite

Freehub - Forged, heat treated and hard anodized 7075-T6 aluminum freehub body with roller bearing technology and heat-treated chrome-moly 3 pawl ratchet mechanism

Bearings - Maintenance free, sealed precision ABEC-5 cartridge and roller bearings

CarbonCore CX2.0

Wheelset Weight: 1360g

Front / Rear Weight: 590g / 770g
Spoke Count: 24 / 30
Over Locknut: 100mm / 130mm
Compatibility: Shimano 8/9, SRAM, Shimano 10, Campagnolo 10/11
Rim: 19mm wide x 20mm deep
MSRP: \$1,299

Features

Rim - Enhanced alloy, heat treated aluminum, welded seam, machined break track

Spokes - Aero profile, continuous carbon fiber composite

Hubshell - Patented CarbonCore design utilizing proprietary long-fiber carbon and woven composite

Freehub - Forged, heat treated and hard anodized 7075-T6 aluminum freehub body with roller bearing technology and heat-treated chrome-moly 3 pawl ratchet mechanism

Bearings - Maintenance free, sealed precision ABEC-5 cartridge and roller bearings

TrueBlack ATR3.0

Wheelset Weight: 1480g

(Tandem 1510g)

Front / Rear Weight: 645g / 835g
Spoke Count: 24 / 30
Over Locknut: 100mm / 130mm
(Tandem 100mm / 145mm)
Compatibility: Shimano 8/9, SRAM, Shimano 10, Campagnolo 10/11
Rim: 19mm wide x 30mm deep
MSRP: \$1,420 (\$1,540 Tandem)

Features

Rim - Aero profile, enhanced alloy, heat treated aluminum, welded seam, machined break track and concealed nipples

Spokes - Aero profile, continuous TrueBlack carbon composite

Hubshell - Patented CarbonCore design utilizing proprietary long-fiber carbon and woven composite

Freehub - Forged, heat treated and hard anodized 7075-T6 aluminum freehub body with roller bearing technology and heat-treated chrome-moly 3 pawl ratchet mechanism

Bearings - Maintenance free, sealed precision ABEC-5 cartridge and roller bearings

CarbonCore AX3.0

Wheelset Weight: 1495g

(Tandem 1520g)

Front / Rear Weight: 650g / 845g
Spoke Count: 24 / 30
Over Locknut: 100mm / 130mm
(Tandem 100mm / 145mm)
Compatibility: Shimano 8/9, SRAM, Shimano 10, Campagnolo 10/11
Rim: 19mm wide x 30mm deep
MSRP: \$1,299 (\$1,419 Tandem)

Features

Rim - Aero profile, enhanced alloy, heat treated aluminum, welded seam, machined break track and concealed nipples

Spokes - Aero profile, continuous carbon composite

Hubshell - Patented CarbonCore design utilizing proprietary long-fiber carbon and woven composite

Freehub - Forged, heat treated and hard anodized 7075-T6 aluminum freehub body with roller bearing technology and heat-treated chrome-moly 3 pawl ratchet mechanism

Bearings - Maintenance free, sealed precision ABEC-5 cartridge and roller bearings

TrueBlack VTR4.0

Wheelset Weight: 1110g

Front / Rear Weight: 465g / 645g
Spoke Count: 24 / 30
Over Locknut: 100mm / 130mm
Compatibility: Shimano 8/9, SRAM, Shimano 10, Campagnolo 10/11
Rim: 19mm wide x 40mm deep
MSRP: \$2,520

Features

Rim - Aero profile, all carbon rim with ceramic brake track

Spokes - Aero profile, continuous TrueBlack carbon fiber composite

Hubshell - Patented CarbonCore design utilizing proprietary long-fiber carbon and woven composite

Freehub - Forged, heat treated and hard anodized 7075-T6 aluminum freehub body with roller bearing technology and heat-treated chrome-moly 3 pawl ratchet mechanism

Bearings - Maintenance free, sealed precision ABEC-5 cartridge and roller bearings

CarbonCore VX4.0

Wheelset Weight: 1120g

Front / Rear Weight: 470g / 650g
Spoke Count: 24 / 30
Over Locknut: 100mm / 130mm
Compatibility: Shimano 8/9, SRAM, Shimano 10, Campagnolo 10/11
Rim: 19mm wide x 40mm deep
MSRP: \$2,299

Features

Rim - Aero profile, all carbon rim with ceramic brake track

Spokes - Aero profile, continuous carbon fiber composite

Hubshell - Patented CarbonCore design utilizing proprietary long-fiber carbon and woven composite

Freehub - Forged, heat treated and hard anodized 7075-T6 aluminum freehub body with roller bearing technology and heat-treated chrome-moly 3 pawl ratchet mechanism

Bearings - Maintenance free, sealed precision ABEC-5 cartridge and roller bearings
